DETAILED ACTION

This Office action is responsive to communication received 03/30/2004 – application papers filed.

Claims 1-8 are pending.

Following is an action on the MERITS:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Brown ('776). As to claim 1, see Figure 1. As to claim 2, again, see Figure 1 as well as Figures 3 and 4. As to claim 3, note Figure 3. As to claim 4, see Figures 3 and 4. As to claim 5, see Figures 3 and 4. As to claim 6, Figure 1 shows at least one slot. As to claim 7, Figures 3 and 4 show a plurality of substantially identical and equally spaced slots. As to claim 8, Brown shows a shaft attached to a ball contacting portion.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans. Reference is made to Figure 5 clearly showing a plurality of substantially identical and equally spaced slots. Specific to claim 8, note that a shaft (14) is also provided with the Evans device.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of Miller, Beilfuss and Brown ('293) show slotted face surfaces. D'Orazio and Otoguro show openings in the front face of a club head.
